HOMESTEAD'S ANARCHIST.

He Regrets that He Did Not Kill Frick.

Redding Stage Robbers Lynched at Night.

Special to the APPEAL:

Stage Robbers Lynched.

Redding, July 25.—About half past 2 o'clock yesterday morning a crowd estimated from 50 to 60 men took John and Charles Ruggles from the jail and hanged them to a beam between two pine trees.

John denied before he was hung that he had any hand in the Casar-deo robbery, where a young girl was killed, and begged hard that they would spare his brother. He offered to tell where the buried treasure was but the crowd merely regarded it as a ruse to gain time and they were both strung up.

The Silver State says a Winnemucca gentleman offers to bet \$500 even up that Harrison will not be the next President. A Reno man has bet that Cleveland will not be elected. This indicates that betting men look on Weaver as the coming man. He is the only free coinage candidate in the field for President and every sincere friend of silver will vote for him.

Frick Resting Easier.

Homestead July 25.—Berkman still insists that he had no accomplices and that he regrets he did not kill Frick. The police have a different theory and are busy working on clues. This afternoon a man was arrested as an accomplice but the police refuse to give his name.

It is reported that Carnegie is several miles from a telegraph station in Scotland and refuses to answer and receive dispatches. This is regarded by many as a blind and that he is in constant communication with the Homestead works.

Frick Resting Easier.

Railroad Swindle.

Kansas City, July 25.—A conspiracy to rob the railroads centering in this city has been discovered. It was formed and carried out by passenger solicitors, ticket brokers and conductors. The plan was to carry passengers out of the city at half fare, the proceeds being divided among those interested. It is said to solicitors, two brokers, and over fifty conductors are implicated, nearly all the roads centering here having been swindled. Arrests are expected.

The Cholera.

Paris, July 25.—The outbreak of cholera in the suburbs continues to diminish. Only two deaths occurred yesterday.

Odessa, July 25.—The mortality from cholera is diminishing on the lower Volga, but north of Tsartzin it is spreading rapidly in towns and villages west of the river.

St. Petersburg, July 25.—In Nij Novgorod cholera is confined to a few travelers from infected districts.

A California Volcanoe.

Sisson, July 25.—There is great excitement here over the appearance of a volcano in the mountains back of Shasta. One of the snow peaks is now in eruption, emitting smoke and flame, visible from this city. An expedition is being fitted out to visit the scene of the eruption.

The Couer d'Alene Prisoners.

Wallace, Idaho, July 25.—U. S. Marshal Pinkham started with 25 of the principal prisoners confined here, for Boise City today by special train on the Union Pacific. Company A of the Idaho National Guard went along as guard.

Attempted Incendiarism.

Sacramento, July 25.—Five incendiary attempts have been made during the last 24 hours, to burn barns and other buildings at Agricultural Park.

Close Shave.

San Francisco, July 25.—J. J. Haley, real estate agent of the S. P., had a narrow escape from death in an elevator accident this afternoon.

A Scorching in Bay City.

Bay City, Mich., July 25.—Ten blocks burned tonight, and the fire, which is beyond the control of the firemen, is still raging.

SILVER DOWNFALL.

It Means the Upbuilding of the Third Party.

Edward Bellamy writes as follows on the outlook:

The failure of the silver coinage bill in the House of Representatives has given a tremendous boom to the third party prospects. Anything, indeed, more auspicious for the party in November could not have happened. The demand for free silver coinage, while strong in the West is still stronger throughout the South and from the beginning of the third party movement, the Southern Farmers Alliance have served explicit notice on the Democratic party that if the present Democratic House failed to pass the silver bill they would desert it in November and vote in a body for the new party. The only argument by which a portion of the membership of the Southern Alliance has been hitherto kept back from committing itself outright to the People's party, has been the promise that the Democratic House would heed their demands.

We do not believe that there is an Alliance man in the South today who has, not, within the last week definitely made up his mind to vote for the candidates nominated at Omaha. Even if the Democratic National convention terrified by the situation, should take the back track and insert a silver plank in the national platform, it would be of no avail. After the action of the House no promises the convention might make, would command any confidence and indeed would make the situation of the Democracy more desperate by alienating its gold standard constituency in the North and East, which is all that is now left of it.

In fact the probabilities are altogether that the Wall street wing, having now won the battle, will strengthen its grip and by the nomination of Cleveland, bar the door against the possible return of the disgruntled Southerners.

What does this mean, practically? It means that the party in November will probably carry five Southern States, being the two Carolinas, Georgia, Mississippi, and Arkansas, and possibly seven, if the Southern Alliance Congressmen may be believed. In the North the new party have all along been likely to carry Kansas and Nebraska and the two Dakotas, but in the silver States of Montana and Colorado, its prospects of success are at least fifty per cent better than before the defeat of the silver bill. That is to say there is now a reasonable probability that the third party in November may carry from nine to thirteen states.

This means that no President is likely to be elected by the people and that if the House of Representatives elect a Democrat, he will be the worst case of a minority President that ever went into office.

But will the House of Representatives necessarily elect the Democratic candidate? Supposing the solid south, the stronghold of Democracy, shall have repudiated the Democratic candidate by strong popular majorities, will the Southern Democratic Congressman who want to be re-elected, vote to make President, the candidate condemned by their constituents? Will they be self-sacrificing?

Do you ask whom they will then vote for? Well, the constitution restricts their choice to the three Presidential candidates who received the largest electoral vote. They will thus have to elect a Republican, a Democrat whom their constituents have rejected, or the one third party constituent have voted for. Figure out for your-self what they may possibly conclude to do.

The fact is, the coming presidential contest, when the press and the people begin to realize the realities and possibilities is going to be the most interesting one since 1860, as it will be the most critical in its political consequences.

The Republican party is already split to the base, and is kept standing only by the hitherto solid opposition of the Democracy.

A TAXPAYER'S SUGGESTION.

A Citizens' Defense Association Recommended.

ED. APPEAL:—The articles in your paper on the manner in which county affairs are handled, leads me to suggest that we do in Ormsby as they did in San Francisco—organize a Citizens' Defense Association to protect the taxpayers from boodles and rout the boodlers out of their official strongholds.

There is hardly a citizen in this county who does not know perfectly well what other exposures the APPEAL will make.

We all know what has been going on for years, only the APPEAL is the only paper that did not hesitate to come out squarely and tell the truth.

Everybody knows just who the men are who are banded together to handle the taxpayers' money, and we all know what a desperate fight they will make to retain control, as defeat means further exposure of their infamous methods.

I would suggest that the leading citizens of this county form an association to protect themselves from the common enemy.

The law provides that any citizen can sue in behalf of the county to recover money illegally paid out.

Of course the citizens will have to attend to this, as the present District Attorney is the creature of the Commissioners, and he will never proceed against his bosses.

If an association were formed, it could go right ahead, and by taking the matter into the courts, very soon see the law enforced.

I think the plan would bring matters to a head very soon.

Yours,

A TAXPAYER.
